# Request for safety inspection 安全檢查的要求

### Dear Customers, 尊敬的顧客 您好:

Thank you very much for your patronage of SR Suntour products. 非常謝謝您惠顧 SR SUNTOUR 的產品。

We are investigating an issue that may result in fixing bolt breakage in a limited production of SR SUNTOUR forks with a fixing bolt that secures the fork lower. The forks were produced in Kunshan, China. In the next days, we will send you formal instruction on how to test and inspect the bicycles equipped with those forks, and replace the fixing bolts, if necessary.

我們發現在部分的前叉產品中有固定螺絲損壞的問題導致安全性降低。這些特定的前叉是本公司在中國昆山工廠所生產。接下來,我們會提供您正式的操作指示,如何測試和檢查安裝在自行車上的前叉,並且在需要時如何正確更換該固定螺絲。

Please immediately identify any bicycles containing the SR SUNTOUR forks models identified on the list attached to this letter, as well as any forks in your inventory. These bicycles and forks should not be shipped until they have been checked and, if necessary, repaired. We will be providing the necessary instructions to check/repair the forks in the next days.

請立即識別如信件上列表的 SR SUNTOUR 的前叉產品型號,包括任何在您倉庫的前叉產品。這些自行車和前叉產品在經過檢查、或者必須被更換之前,不應該被運送出貨,我們提供以下檢查的方法和更換的操作說明。
